

Landscape Designer

Job Description:

The Landscape Designer conceptualizes and sells a vision & solution to customers with landscape needs.

Essential Functions:

- Willingness to work as part of a team to deliver functional and suitable designs
- Meet with clients at their homes/our office to develop all-inclusive plans
- Present completed plans and help the client visualize their new environment
- Produce digital and hand rendered diagrams, illustrations and graphics
- Produce technical construction documents
- Provide work in a timely manner with adherence to company standards and deadlines
- Other duties as required

Requirements:

- Education in the field of Landscape Design or Architecture
- Fully developed design skills in hardscapes and softscapes
- Must have extensive knowledge of perennials, shrubs, evergreens, and trees
- Highly motivated, self driven individual who is sales orientated
- Excellent attention to detail while working in a fun & fast paced environment
- Strong verbal & written communication to enhance customer service
- Good time management skills; be available for seasonal long hours & weekends
- Ability to prioritize and multi-task
- Able to work effectively with individuals of differing knowledge and background
(i.e. clients, contractors, vendors, other designers)
- Must be familiar with or be able to learn landscape computer aided design programs.
- Must be competent in Microsoft Office
- DynaSCAPE design proficiency is highly valued
- Installation knowledge/experience is a plus
